

BYLAWS

ARTICLE	Current Bylaw	Proposed Bylaw	Rationale
Article III Section B	Membership shall be terminated for acts leading to the loss of a professional license and/or certification or any other act for which the Board of Directors deems termination of membership advisable.	Membership shall be terminated for acts leading to the loss of a professional license and/or certification due to unethical conduct as determined by NYSDOH or ARRT. Further, any other act deemed by the Board of Directors to be unethical or unprofessional conduct shall be grounds for termination of membership.	Current wording is too vague & ambiguous. Would a member that had a lapse in ARRT certification due to a CE situation have their membership terminated? The added phrase is an attempt to better define defensible criteria for termination of membership.
